BSC GIT Lunch & Learn

Objectives

This training session aims to cover both the Git CLI and the GitLab GUI. Whether you're new to Git or looking to refine your workflow, hopefully this session is valuable.
Grab your lunch and join us for an interactive short internal session on Zoom for all BSC staff!

Session content:

- What Git is and why it matters
- Understanding the Git workflow
- Setting up Git & SSH keys
- Creating and cloning repositories
- Adding, committing, and pushing changes
- Using Git branches & merging

Speakers

Daniel Oxenbury, Systems Engineer, System Administration, Operations, BSC

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
