

[Programming models STARSs \(2010\)](#)

The RES (Spanish Supercomputing Network), coordinated by BSC organized the 20th and 21st September 2010 in Barcelona, the peninsular edition of the seminar RES User's Seminar Programming models (STARSs).

It was conducted in English by experts from the Computer Science Team of BSC-CNS and specifically the seminar was focused on providing and introduction in programming models GRIDSs, COMPSs, MPI, SMPSs and STARSs. In the next link, you will be able to find a short description of the Programming Models that were explained during the seminar: [Programming Models description](#).

For more information, you can access and download the presentations used during the training just by clicking on the correspondent line of the agenda.
