

[BSC Researcher presents results at International Tokamak Physics Activity Meeting](#)

These are busy times with many meetings for the [International Tokamak Physics Activity](#) (ITPA,). BSC Senior Researcher Shimpei Futatani is at the moment in Garching, Germany, participating in the meeting of the Pedestal and Edge Physics Topical Group of ITPA. Yesterday he gave a talk at the meeting entitled “Non-linear MHD modelling of pellet triggered ELM”. It reported on the recent results of his research for ITER, JET and Asdex Upgrade tokamaks.
