

[Another Trip to the Wall: How Much Will Stacked DRAM Benefit HPC?](#)

URL: <http://dl.acm.org/citation.cfm?id=2818955>

Authors: [Radulovic, Milan](#) / [Zivanovic, Darko](#) / [Ruiz, Daniel](#) / [de Supinski, Bronis](#) / [McKee, Sally](#) / [Radojkovic, Petar](#) / [Ayguade, Eduard](#)

Research Lines: [Memory systems for HPC and AI](#)

Publication: Proceedings of the International Symposium on Memory Systems (MEMSYS '15)

Place Published: Washington DC, DC, USA

Pagination: 31-36

Paraules clau: [Bandwidth](#), [DRAM](#), [high bandwidth memory \(HBM\)](#), [HPC](#), [hybrid memory cube \(HMC\)](#), [latency](#), [Memory wall](#)
