

[Efficiently running SpMV on long vector architectures](#)

URL: <https://dl.acm.org/doi/10.1145/3437801.3441592>

Authors: [Gomez, Constantino](#) / [Mantovani, Filippo](#) / [Focht, Erich](#) / [Casas, Marc](#)

Research Lines: [Mobile and embedded-based HPC](#)

Publication: Proceedings of the 26th ACM SIGPLAN Symposium on Principles and Practice of Parallel Programming (PPOPP)

Place Published: ACM Digital Library

Volume / Number / Pagination: 1 / 26 / 292-303

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
