

A framework for evaluating comprehensive fault resilience mechanisms in numerical programs

URL: <http://dx.doi.org/10.1007/s11227-015-1422-z>

Authors: [Chen, Sui](#) / [Bronevetsky, Greg](#) / [Li, Bin](#) / [Casas, Marc](#) / [Peng, Lu](#)

Publication: Journal of Supercomputing

Volume / Pagination: 71 / 2963-2984

Paraules clau: [Fault resilience](#), [high-performance computing](#), [Numerical errors](#), [Soft faults](#)
