

## [A Massively Parallel Multi-Scale FE2 Framework for Multi-Trillion Degrees of Freedom Simulations](#)

**URL:** <https://dl.acm.org/doi/proceedings/10.1145/3592979>

**Authors:** [Huebl, Axel](#) / [Silvano, Cristina](#) / [Robinson, Timothy](#) / [Moulinec, Charles](#) / [Houzeaux, Guillaume](#) / [Borrell, Ricard](#) / [Corominas, Adria](#) / [Oyarzun, Guillermo](#) / [Grasset, Judicael](#) / [Giuntoli, Guido](#) / [Vázquez, Mariano](#)

**Research Lines:** [Alya - High Performance Computational Mechanics](#) / [Computational solid mechanics](#)

**Publication:** PASC '23: Platform for Advanced Scientific Computing Conference Proceedings of the Platform for Advanced Scientific Computing Conference

**Place Published:** Davos Switzerland New York, NY, USA

**Volume / Pagination:** 821 / 1 - 11

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
