

## Origin of enhanced thermal atomic layer etching of amorphous HfO<sub>2</sub>

**URL:** <https://avs.scitation.org/doi/10.1116/6.0001614>

**Authors:** [Mullins, Rita](#) / [Gutiérrez-Moreno, Julio](#) / [Nolan, Michael](#)

**Research Lines:** [Ab-Initio Electronic Structure Methods](#)

**Publication:** Journal of Vacuum Science & Technology

**Place Published:** AVS

**Volume / Pagination:** 40 / 022604

**Paraules clau:** [amorphous](#), [Atomic Layer Etching](#), [HfO<sub>2</sub>](#), [surfaces](#)
