

Software-Based Fault-Detection Technique for Object Tracking in Autonomous Vehicles

URL: <https://ieeexplore.ieee.org/abstract/document/10155027>

Authors: [Medaglini, Alessio](#) / [Bartolini, Sandro](#) / [Mandò, Gianluca](#) / [Quiñones, Eduardo](#) / [Royuela, Sara](#)

Research Lines: [Predictable Parallel Computing](#)

Publication: 12th Mediterranean Conference on Embedded Computing (MECO)

Place Published: IEEE

Paraules clau: [Reliability](#), [Fault-Detection](#), [Proactive Monitoring](#), [Autonomous Vehicles](#), [Cyber-Physical Systems](#)

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
