

## Structural-Based Modeling in Protein Engineering. A Must Do

**URL:** <https://pubs.acs.org/doi/10.1021/acs.jpcc.1c02545>

**Authors:** [Roda, Sergi](#) / [Robles-Martín, Ana](#) / [Xiang, Ruite](#) / [Kazemi, Masoud](#) / [Guallar, Victor](#)

**Research Lines:** [Enzymatic Catalysis and Protein Engineering](#)

**Publication:** The Journal of Physical Chemistry B

**Place Published:** ACS Publications

**Volume / Number / Pagination:** 125 / 24 / 6491 - 6500

**Paraules clau:** [enzymology](#), [computational chemistry](#), [Enzyme engineering](#), [protein](#), [PELE](#), [enzyme-substrate](#), [molecular modeling](#), [bioprospecting](#)
