[The PENGUIN approach to reconstruct protein interactions at enhancer-promoter regions and its application to prostate cancer](#)

URL: <https://doi.org/10.1038/s41467-023-43767-1>

Authors: [Armaos, Alexandros](#) / [Serra, François](#) / [Núñez-Carpintero, Iker](#) / [Seo, Ji-Heui](#) / [Baca, Sylvan](#) / [Gustincich, Stefano](#) / [Valencia, Alfonso](#) / [Freedman, Matthew](#) / [Cirillo, Davide](#) / [Giambartolomei, Claudia](#) / [Tartaglia, Gian](#)

Research Lines: [Personalized Medicine Initiative](#)

Publication: Nature Communications

Place Published: Springer Nature Limited

Volume / Number: 14 / 8084

Paraules clau: [enhancer-promoter interactions](#), [prostate cancer](#), [chromatin architecture](#), [protein interactions](#), [network biology](#)
