

Innovation Journey 2021

Innovation Journey is a workshop series that aims to promote collaboration between research personnel in need of entrepreneurship management skills; and industry and SME professionals searching for new ventures in the field of High-Performance Computing, Big Data and AI.

The goal is to accompany researchers as they make their first contact with the private sector and to foster the use of HPC technologies in industry and SME initiatives.

The seven-session program will offer business training through interactive workshops and an approach to the implementation of practical solutions in the market, as well as mentoring and guidance by entrepreneurs, which will be established through a rigorous curriculum.

Companies

EUROCC SPAIN, RES & REC CNS PRESENT:

INNOVATION JOURNEY

Supercomputing for Industry and SMEs
OCT 1st - NOV 12th

DO YOU KNOW WHAT SUPERCOMPUTING CAN DO FOR YOU?

¿And Big Data or Artificial Intelligence?

Supercomputing technologies provide the means to tackle large and complex problems more effectively.

SUPERCOMPUTING & INDUSTRY

Endless applications

Many companies use supercomputing to design new products, optimise manufacturing processes, solve production problems, extract data and simulate processes in order to become more competitive, profitable and environmentally friendly.

WHAT ARE WE OFFERING?

Your idea - A reality

Innovation Journey is a workshop series in which teams made up of researchers and professionals like you use supercomputing to take their business proposition to the next level.

WHAT CAN YOU EXPECT?

A disruptive initiative

Training in Supercomputing, Big Data and Artificial Intelligence
Working in Collaboration with highly qualified researchers
Developing projects with a high degree of Innovation

TAKE THIS GREAT OPPORTUNITY

And find out what supercomputing can do for your business

The Innovation Journey will take place during 7 full-day sessions in seven consecutive weeks.

It will combine theoretical and practical sessions that will encourage collaboration between companies and researchers to develop a solution using supercomputing.

Researchers

EUROCC SPAIN, RES & THE BSC-CNS PRESENT:

INNOVATION JOURNEY

Find your inner **entrepreneur**

OCT 1ST - NOV 12TH 2021

ARE YOU A RESEARCHER WITH A LOT OF POTENTIAL?

We are sure you are.

In fact, you are probably aware of that too. And you might have started thinking: what if all my potential could be further developed in the **private sector**?

5/10 BSC-CNS SPIN OFFS WERE CREATED IN THE PAST YEAR

Tech-transfer: a reality

The transfer of technology developed inside the BSC-CNS to society and the private sector is **becoming a reality**. It allows researchers to develop and exploit their discoveries in a more **independent and challenging** but also **fruitful way**.

WHAT ARE WE OFFERING YOU?

New beginnings, a new path

In the Innovation Journey, you will be part of a multidisciplinary group of **researchers**. You will receive **training** on how to get started in the **entrepreneurial world** and develop an entrepreneurial mindset **collaborating** with companies that are already active in the market.

LEARNING BY DOING

A methodology that works

The Innovation Journey is a **success story**: 3 companies emerged after participating in the last edition¹. This year, you will also be able to **collaborate with companies** that will bring their expertise to assist you on your way to the private sector.

¹10/10 participants in last edition, assured they would recommend the programme to their colleagues.

YOU HAVE THE SCIENTIFIC POTENTIAL

Let yourself discover your inner entrepreneur

The Innovation Journey will take place during **7 full-day sessions** in seven consecutive weeks. It will combine a **theoretical and practical** "learning by doing" methodology, which will approach **actual enterprises and businesses**.

It will take off on **October 1st**.
