

General Earth Sciences

Objectives

The Earth Sciences Department of BSC-CNS has the aim of modelling and understanding the behaviour of the Earth System, focusing its research activities on atmospheric processes and climate change modelling. We invite you to watch the [Department's video](#) to learn more about our research.

The strategic plan is available [here](#).

We invite you to see the Department leaflets:

- [Atmospheric Composition](#)
- [Climate Prediction](#)
- [Computational Earth Sciences](#)
- [Earth System Services](#)

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
