10th Fenix Infrastructure webinar: Introduction to the ICEI resources at BSC

Objectives

The 10th Fenix Infrastructure webinar is titled "Introduction to the ICEI resources at BSC" and takes place on Friday 16 April 2021 at 15:00 CEST. Read all the details below and register at: **https://zoom.us/webinar/register/WN_dqA655D9Rda4QggsTyYpsw**

Cost: Free of charge

Speaker: Javier Bartolome (BSC)

Description: This webinar presents the ICEI resources that will be available at the Barcelona Supercomputing Center (BSC) for users. Nord3 is a supercomputer based on Intel SandyBridge processors, which will be capable of handling Scalable computing services and Cloud services, and change resources from one service to another. In addition, a hardware description will be provided about the storage infrastructure deployed at BSC.

Who should attend?

- HPC infrastructure users
- Neuroscientists
- EBRAINS service developers
- Other platform service developers

Main takeaways

- Technical information on different resources that will be available at BSC, namely Nord3 cluster (SCC and VM) and storage infrastructure
- How platform service developers can get started on the the Nord3 VM service

Agenda

- Nord3 cluster (SCC / VM services)
- Storage Infrastructure (Active Data Repositories and Archival Data Repositories)
- Q&A

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
