MaxCompiler Workshop

Objectives

Maxeler solutions exploit dataflow computing – a revolutionary way of performing computation, completely different to computing with conventional CPUs.
The workshop will introduce Maxeler technology with hands-on practicals.

This is a BSC training event.

Please bring a laptop! Any of the following OS will suffice: *Linux, MAC* and/or *MS Windows*.

Speaker: Georgi Gaydadjiev https://www.maxeler.com/about-us/
