

[BSC participates in the SEG Annual Meeting](#)

BSC will showcase software designed and developed for High Performance Computing (HPC) applications to fulfil geophysical exploration requirements.

Society of Exploration Geophysicists
The international society of applied geophysics

Barcelona Supercomputing Center is participating in the exhibition at the Society of Exploration Geophysicists Annual Meeting, taking place at the Colorado Convention Center in Denver, where we will be welcoming visitors to booth #2086. The exhibition runs from Sunday, 26 to Wednesday, 29 October.

BSC will showcase software designed and developed for High Performance Computing (HPC) applications to fulfil geophysical exploration requirements. Conference attendees are invited to join daily live demonstrations of this software.

In addition, a new game-changing project named Aurora will be presented. This project is being carried out by three main partners: BSC, Repsol and Intel.
