

HR Excellence in Research

This recognition confirms the commitment of the centre to the principles of the European Charter for Researchers and the Code of Conduct for the Recruitment of Researchers.

HR EXCELLENCE IN RESEARCH

The European Commission grants BSC the distinction for commitment to excellence in its [HR Strategy for Research](#). This recognition confirms the commitment of the centre to the principles of the [European Charter for Researchers](#) and the [Code of Conduct](#) for the Recruitment of Researchers. In 2013, BSC signed the Declaration of Commitment. With HR Strategy for Researchers BSC wants to keep sustaining the best framework and environment for research excellence, maintaining and improving by adopting international best practices and high-quality standards.

The "HR Strategy for Researchers" supports research institutions and funding organisations in the implementation of the Charter & Code in their policies and practices. The concrete implementation of the Charter & Code by research institutions will render them more attractive to researchers looking for a new employer or for a host for their research project. Funding organisations implementing the Charter & Code principles will contribute to the attractiveness of their national research systems and to the attractiveness of the European Research Area more generally. The logo "HR Excellence in Research" will identify the institutions and organisations as providers and supporters of a stimulating and favourable working environment.
