11th RES Users' Meeting & 6th HPC Advisory Council Conference

The **Spanish Supercomputing Network** (RES) organizes every year a **users' meeting** to inform about RES resources and procedures. This event aims to be a discussion forum among RES users, technical staff, the access committee and the users' committee. In addition, the scientific parallel sessions and the poster session will promote the dissemination of highlighted research results of RES users. The local organizer of this meeting is the RES node Fundación Pública Galega Centro Tecnolóxico de Supercomputación de Galicia (CESGA).

The 11th RES Users' Conference will be held jointly withthe **6th HCP Advisory Council Meeting**. The objective of this event is to encourage an interactive exchange between companies and organizations with the final HPC users. It will address a wide range of disciplines and interests such as Deep Learning, Machine Learning, Exascale Era, Big Data, etc. It will include technical, keynote and sponsor sessions.

You can find the agenda and further information in the RES website.

Poster presentation

Poster presentation: We encourage young researchers attending the RES Users' Conference to present their work in the poster session. Proposals must be submited through the registration form before the **7th of September**. Posters will be exposed during the coffee breaks and the lunch break on the 28th September and they will be listed in the book of abstracts. Posters should be DinA0 portrait format, in Spanish or English.
