SIESTA-PEXSI: massively parallel method for efficient and accurate ab initio materials simulation without matrix diagonalization

URL: <https://iopscience.iop.org/article/10.1088/0953-8984/26/30/305503>

Authors: [Lin, Lin](#) / [Garcia, Alberto](#) / [Huhs, Georg](#) / [Yang, Chao](#)

Research Lines: [Ab-Initio Electronic Structure Methods](#)

Publication: Journal of Physics: Condensed Matter

Volume / Number / Pagination: 26 / 30 / 305503

Barcelona Supercomputing Center - Centro Nacional de Supercomputación
